Scholarship Award
Awards 7 & 8
Luminaire Competition Winner
Closing Remarks

After Party  8:00-9:00
Open Bar & DJ

Master of Ceremonies

Justin Castellano found lighting through theatre. He is a graduate of The Theatre School at DePaul University with a BA in Acting & Directing. Combining his theatre training with a career in lighting by day he is an account manager for Archibald & Meek and by night participates in local theatre productions whenever possible. “Theatrical lighting is temporary and only experienced by a limited audience, while architectural lighting gives the opportunity for creating a more permanent story. Tonight I am excited to help celebrate these nationally recognized designs and the teams that created them.”

ENGINEERING SOCIETY

IES
ILLUMINATION AWARDS 2019
Welcome all to the IES Chicago Section Award Banquet.

Welcome all to the IES Chicago Section Award Banquet. We are delighted to have all of you here tonight to celebrate our section’s award winners. Congratulations to all the award winners!

We are very enthusiastic about this year’s event and first edition printed program. Over the next several pages you will be able to view each Merit Award winning project. You will also learn about upcoming events through June 2020, and share our appreciation for our members, sponsors and Board of Managers past and present.

This year the board of managers is committed to increasing the value of your membership, growing the Emerging Professionals group, and recognizing great projects by our members. To execute these goals, we are planning event topics the members have requested, outreach to local schools and businesses to recruit future leaders into the Emerging Professionals group, and forming a committee to recognize great projects from our membership.

To make this a reality we need help from our entire membership: if you are passionate about helping us with these goals, please contact president@ieschicago.org.

These initiatives would not be possible without the dedication from the Board of Managers and Associate Managers as well as the continued support from all our sponsors and members who renew annually. Thank you for your commitment and sponsorship to the IES Chicago Section.

Sincerely,

Erin L. McLellan-Dawe
IES Chicago Section President

PAST PRESIDENTS

The Amenity Space

This space was converted from a basement-like rarely used storage area into a fabulous new Tenant Amenity Space, complete with a Lounge, Fitness Center, Yoga Studio, Private Phone Booths, Kitchen and ample seating for any occasion.

EPSTEIN
Renata Pajerska
The Engineering Education and Research Center at the University of Texas – Austin is devoted to educating future generations of engineers in an environment designed to accelerate technology creation and increase interdisciplinary research.

PIVOTAL LIGHTING DESIGN
Lauri Treddinick
The University of Chicago Crerar Science Quadrangle project redeveloped an open campus space that was leftover from a 1980s-era project. The existing pass-through never had a true design or distinguishable feature and needed a center focus that would create a gathering space and sense of purpose.

**PRIMERIA ENGINEERS**
Deborah Steimal-Claire, PE, LC

**JACOBS/RYAN ASSOCIATES**
Terry Warriner Ryan - Landscape Architect
HKS relocated to the National Building. This historical/landmarked building brought unique challenges during design and required the team to think beyond traditional systems to achieve a WELL standard that spoke to the firm’s core values.

IES Chicago thanks the generous Annual Sponsors who make all of our courses and events possible.
It’s been a busy year for the Emerging Professionals (EPs) here at Chicago’s IES branch. From social outings to luminaire building competitions, there has never been a better time to be an Emerging Professional member. Individuals who have less than five years of experience within the lighting industry are applicable to register as an Emerging Professional within the IES at a discounted rate.
McDonald’s Chicago Flagship

McDonald’s Chicago Flagship restaurant, a sparkling 19,000- sq.-foot-glass-box, is a dramatic replacement for the 2005 Rock-n-Roll version that previously occupied the site.

Art on the Mart

Located on the Chicago River, the Merchandise Mart (theMart), has long been an iconic building to natives and tourists. The location and size made it an ideal canvas for dynamic color changing lighting with full scale projections of public art.

GWEN GROSSMAN LIGHTING DESIGN

Gwen Grossman
Rachel Levy
Steven Clarke
WMTV-Madison’s new headquarters incorporates a newsroom, production studios, offices, and amenity spaces. The facade is largely opaque since many production spaces cannot have daylight. WMTV wanted the building to feel transparent to reflect the connectedness of their 24/7 news operation.

SCHULER SHOOK
Jim Baney
The passing of the last two decades created bold shifts in how we meet, work, and interact within the spaces where we spend much of our daily lives. The goal of this lobby revitalization aimed to transform a daunting, unwelcoming space into a new “place to be”.

CANNON DESIGN

Robert Benson - Architect
Tom Hanley - Architect
Michael Kmak - Architect
Raisa Shigol - Lighting Design
Owen Dalton - Lighting Design
ACOUSTIC SOLUTIONS
Flexible systems that deliver lighting and acoustic comfort with a unified aesthetic.
